SPRING 2023 SPECIAL REPORT

Cleanse & Protect with a 5-Day DETOX!

America is Sick And I Have The Remedy

America's system of health-care is really the opposite, it's a system of disease maintenance.

And hospitals instead of teaching health and prevention, are all based on surgical repair and emergency care. After all, this is where the real money is, not curing anything, but instead getting people into a life-long addiction to numerous pharmaceutical drugs. And hospitals and emergency rooms are all about repair, not about prevention.

It's like a mountainous highway, with dangerous cliffs on all sides but with no guardrails. So when you drive off the cliff, the ambulance takes you to the hospital, and the doctors do their expensive and risky life-saving work. **My system is putting up the guardrails.** It's a lot cheaper, a lot less painful and a lot more fun. My system is called prevention. A sensible lifestyle and a little cleaning here and there and you can avoid all the trauma and drama.

We hear the word Prevention all the time, well the best Prevention is creating a life that is not harmful to your body. A lifestyle that promotes health and longevity like consuming Nutritious Healthy Food and Liquids, Daily Exercise and Flexibility Movement and a Positive Attitude and Focus on Happiness to name a few things. And a program of routine DETOXIFICATION to clean out and tune up your elimination organ's such as your Bowel, Liver and Kidneys.

Doing a DETOX is simply a cleaning, flushing, scrubbing of and protecting your internal organs. Especially the elimination organs that are designed to keep your body clean.

In my clinic, I had to laugh at my patients, because when it came to their cars, they did much better prevention than they did on their own bodies. They did all the regular servicing, they changed the oil and filter, the air filters, check all the belts and hoses, tune ups, rotated tires, whatever. But with their own body, they did NOTHING. They expected a lifetime of service without ever doing any Preventative Maintenance. My patients took better care of their pets!

A DETOX is PREVENTATIVE MAINTENANCE.

Cleansing and Flushing old built up waste out of your body will give you years more of trouble free service. You will feel great, have tons more energy and best yet, prevent future problems and dis-eases.

"One of the greatest ways to prevent, and even heal disease, is to keep ahead of the game by periodically assisting our body in eliminating built-up toxic waste. That's a detox."

Why Detox?

A detox, or detoxification program, (also called a cleanse) is the process of extracting, neutralizing, and eliminating built-up waste, pharmaceutical drug residue, heavy metals, mucous, pus, fluids, toxic chemicals, poisons or any harmful residues from your body. This waste can be in your fat, muscles, organs, cells, and even within the various spaces between organs within your body.

Where do the toxins come from?

First, simply being alive creates metabolic waste. Your body must continuously eliminate solid, liquid, and gaseous waste or you will get sick and die. Second, we adsorb many toxins and poisons every day from our food, air, and water as well as from drugs and toxins found in our environment.

Why should you consider a Detox?

The bottom line is that modern life and modern living have overloaded, overworked, polluted, irritated, inflamed, clogged, scarred, constipated, degenerated, and diseased all of your body's elimination organs and systems.

This has caused a slowing down effect of your body's elimination of toxic waste, and caused it to be backed up and deposited - (and even stored) in your body - overworking and depressing your immune system and lowering your disease resistance.

This unavoidable toxicity underscores the serious importance of regular and routine cleansing, detoxification, and toning of these precious elimination organs and systems.

When is it best to do a detox?

#1 - For Prevention. Everyone who wants to maintain a healthy body needs to detox. Depending on the detox and your goals, once every three to four months is common.

#2 - For Healing. If you are not feeling well, or if you have a diagnosed illness or disease, then begin detoxing immediately. Carefully evaluate your needs and decide upon a detox plan. Then get going right away. You should consider my 30 Day Detox.

What will happen when you detox?

When your body gets clean and your elimination systems are cleaned, flushed, toned, strengthened and tuned-up, two things happen...

First, problems go away. There isn't any condition of the human body that isn't helped by getting cleaner and healthier.

By strengthening the systems that we already have, our bodies are better able to fight disease - existing or newly introduced as a matter of life.

No matter how far removed your problem may seem—no matter how unrelated it may seem for simple detoxification—when you get clean and healthy your body will find that problem, get rid of it, and repair and heal itself. Period.

Second, you will have more energy. When your body removes toxins, poisons, waste, acids, and mucous from your body and from your organs, tissues, and cells, you will feel great and you will have a lot more energy.

Why? After detoxing, your body is clean clear, and operates more efficiently. It uses fuel better, eliminates waste faster, and many blockages have been removed. Your immune system gets stronger and every internal organ benefits. All of this contributes to feeling great and having an abundance of energy.

Dr. Schulze

70,000 Bowel

Our fiberless junk food diets, and lack of exercise, causes the average American to be 70,000 bowel movements SHORT in their lifetime! Do the math.

Most American high school health textbooks state that it is normal to have 3 or 4 bowel movements a week. Based on an average life span of 80 years (3.5 average bowel movements a week times 52 weeks times 80 years = 14,560 lifetime bowel movements.)

On the other hand, primitive people who eat simple diets high in fiber and no processed food and get plenty of exercise and have very low stress have an average 3 bowel movements a day (3 bowel movements a day times 52 weeks times 80 years = 87,360 lifetime bowel movements.)

“My **FIRST RULE** with all of my patients was to get their bowel cleaned out. Then, the healing begins.”

87,360 lifetime bowel movements for the primitives minus 14,560 lifetime bowel movements for Americans shows that Americans are 72,800 bowel movements short over their lifetime compared to primitive people.

Now who would care EXCEPT THAT AMERICANS HAVE THE HIGHEST INCIDENCE OF COLON-RECTAL DISEASE AND COLON-RECTAL CANCER OF ANY COUNTRY IN THE WORLD.

So obviously what we teach our children about health in high school is really not normal, but a recipe for disease, cancer, colostomy bags and death!

This blocked, dehydrated, encrusted, fecal matter is slowly poisoning us, infecting and rotting our bowel, causing inflammation, polyps, fissures, ulcers, tumors,

cancer, and eventually killing us.
We are self-poisoning.

This is exactly how backed-up waste and blockage leads to major disease in the body. Without proper hydration, nutrition, and a thorough cleansing of the colon on a regular basis, every system of the body suffers.

The downsides of constipation are endless and infinite. You can have sickness, immune weakness, low energy, back problems, headaches, leg pain, menstrual irregularity, hormone imbalance, emotional problems, bad digestion, poor assimilation...and numerous other problems including herniation of intestine due to impaction and diverticulosis.

Modern medicine says that 100% of Americans, before they die, are going to have herniated intestines due to constipation. I saw hundreds of patients that developed cancer in the bowel simply because of constipation. Since all waste, toxins and poisons that the body eliminates from all organs and systems eventually ends up in the bowel for elimination, cleaning out and keeping the bowel functioning means all the body's metabolic waste can get out of you fast.

In my clinic I saw every disease, every illness, no matter what it was, helped by cleaning out the bowel.

You may think that your problem is totally unrelated to your bowel, but let me tell you, the old Natural Healers knew it, and they were right... when you clean out your bowel, miracles can happen! This is why a seasonal Bowel Detox was MANDATORY in my clinic, and why 80% of my patients were completely healed after completing a thorough bowel detox program.

No matter how far removed the problem seems from the colon, no matter how ridiculous it may seem to do a bowel cleansing program instead of brain surgery, cleanse the bowel first and see what happens.

— Dr. Schulze

Movements **Missing?**

— Olivia A., Irving, TX
(actual customer pictured)

Feel **LIGHTER** & Have A Flatter Stomach! Detoxification Starts With The Bowel!

5-Day **BOWEL** Detox

- ✓ **Powerfully PROMOTES regular, healthy and complete bowel movements**
- ✓ **A POWERFUL intestinal vacuum that cleans out old fecal matter, toxins, poisons, bacteria, drug residues and heavy metals**
- ✓ **Have a flatter stomach and feel CLEANER and LIGHTER than ever before**

When the colon is impacted with extra waste, it swells putting pressure on (and sometimes even infecting) nearby blood vessels, nerves and organs.

If you want to start having regular, healthy and complete bowel movements and easily clean out years of accumulated toxins, poisons and waste, this program is for YOU.

Everyday Toxins Are

The modern world is filled with toxins in our air, food, and water. According to leading experts, 80% of all cancers are a direct result of chemicals found in our environment. There are more than 72,000 synthetic chemicals in use today, with approximately 1,000 new chemicals introduced each year with only a fraction of them tested for safety. It is a simple fact, if you live anywhere on this planet, you are breathing, drinking, and eating poisons...

AIR

A recent EPA study concluded that air inside American homes is up to 100 TIMES more polluted than outdoor air. Furniture, carpet, and everything indoors is off-gassing and emitting toxic gasses, while toxic fumes from common household cleaners cause cancer. Toxins such as carbon monoxide, lead, insecticides, and pesticides fill the air you are breathing right now.

FOOD

The FDA has warned that there are over 50 different known poisons and toxic substances in the Average American's grocery cart.

WATER

Radioactivity in tap water has poisoned as many as 50 million (1 in 7) Americans all around this country. In the average 10-minute shower, the human body absorbs as much chlorine as if you drank 20 gallons of tap water.

YOUR BODY IS POISONED

Analysis of human fat, blood, urine, breath, mother's milk, and even semen demonstrates that EVERYONE on this planet (not just those that live near big cities and pollution sources), but EVERYONE (especially Americans) carries hundreds of toxic, lethal chemicals in their tissues—Dioxins (Agent Orange), PCB's, DDT, Organophosphates, Organochlorines—the list is long.

Every time you turn on the television it's a law firm ad for another class action lawsuit against some common insecticide like Round Up, to contaminated drinking water at military Camp LeJuene to trains derailing carry deadly toxic chemicals. (see photos)

These toxic chemicals present in our environment and our bodies are a direct link to the skyrocketing cancer rate and the alarmingly high rate of reproductive issues, from impotence and low sperm count to infertility.

MY BOTTOM LINE

I don't care who you are, and I don't care how healthy you think you might be. I don't care if you live in Tahiti, eat only organic fruit, drink only distilled water, and exercise eight hours a day. If you are a human being who eats, drinks, and breathes on this planet, your liver has been attacked, damaged, and is sick.

— Dr. Schulze

DESTROYING Your Liver!

Toxins are EVERYWHERE. From pesticides and preservatives in your food to cancer-causing chemicals in the air and water, you are surrounded 24/7!

NO MORE PAIN!

I started Dr. Schulze’s 5-Day LIVER Detox and after the fifth day, I had no more stomach pain and the swelling went down. It has been two years with no problems with my gallbladder.

– Amelia S., Anaheim, CA

FLUSHING AWAY!

I had three gallbladder attacks, I did the gallbladder flush and I have a medical report that reads, “No evidence of gallstones as noted on the ultrasound.” Yes! I feel great and I decided to keep to Dr. Schulze’s recommendation and will complete a flush every three months.

– Spring Y., Bonney Lake, WA

– Camila H., Churchton, MD
(actual customer pictured)

Triple Your **ENERGY**, Improve Your Focus, and Be Vibrant!

5-Day LIVER Detox

- ✓ **COATS and PROTECTS** your liver cells and helps to eliminate harmful, dangerous contaminants
- ✓ Supports your body to **DISSOLVE and REMOVE** hardened sediments from the gallbladder
- ✓ **CLEANS** your blood of unhealthy accumulated deposits
- ✓ A **CLEAN** liver means you have all the **ENERGY** you need when you need it

More than any other organ in your body, your liver prevents you from getting sick. It is known as your “first line of defense” because your liver is the defensive barrier between the things you take into your body and the blood that feeds that body.

And the best way to maintain a strong and healthy liver is to cleanse it regularly.

“My 5-Day LIVER Detox is not only safe and easy, but also extremely effective.”

– Dr. Schulze

Kidney Failure Is

ON THE RISE!

INCONTINENCE

An estimated 17 MILLION adults in the U.S. have daily Urinary Incontinence and a further 33 MILLION suffer from the overlapping condition, OAB (overactive bladder). That's 1 in every 5 American adults!

FACT:

The adult diapers market size was valued at \$13.3 BILLION in 2018 and is expected to reach \$24.1 BILLION by 2026—an 81.5% INCREASE!

DIABETES

An estimated 37.3 MILLION Americans—just over 1 in 10—have Diabetes and 96 MILLION more American adults—approximately 1 in 3—now have Pre-Diabetes.

FACT:

Among Diabetes patients, 5 million (1 in 6) were smokers, 30 million (9 out of 10) were overweight, and 13.5 million (2 out of every 5) were physically inactive.

FACT:

Worse, new cases of type 1 and type 2 Diabetes have SKYROCKETED among U.S. youth. And adolescents ages 12 to 18 years, more than 1 in 6 (18% of U.S. adolescents) now have Pre- Diabetes.

DIALYSIS

Last year, nearly 800,000 Americans had kidney failure, and needed dialysis or a kidney transplant to survive (2 in every 1,000 people). 554,038 of these patients received dialysis to replace kidney function and 229,887 lived with a kidney transplant.

FACT:

After five years on dialysis, more than 75% OF PATIENTS ARE DEAD. After 10 years, more than 92% HAVE DIED.

FACT:

Kidney transplants have MORE THAN DOUBLED in just 5 years.

FACT:

15 MILLION Americans report kidney and bladder illness every year. 9 MILLION have potentially LETHAL kidney disease.

KIDNEY STONES

Extremely painful, debilitating bouts with kidney stones are skyrocketing in America. More than 30 million people are expected to get a kidney stone—twice the amount of 30 years ago.

FACT:

Ten years ago, kidney stones occurred in approximately 5.2% of the U.S. population.

FACT:

Today, due to high-protein diets and increased stress, about 20% of men and 10% of women can now expect to suffer from a stone during his or her lifetime.

SUGAR & SODIUM OVERLOAD

There is way too much sugar and sodium in everyday foods. The top two culprits that overload and run down our kidneys are sodium and sugar. The prolonged result is Kidney Disease. One of the most popular “on the go” lunches in America is a slice of pizza and a Coke. But, did you know that just ONE 12-oz can of Coke contains an average 38 grams of SUGAR, more than an adult male’s entire recommended sugar intake for the day (36 grams), and is almost double what a woman should consume (20 grams)!

WE DID IT TOGETHER!

“My granddaughter and I did our very first detox right after the first of the year. We laughed, we learned, we drank, we detoxed. Danielle and I both loved the K-B Tea the best. It was just like drinking your favorite iced tea! This was an unforgettable experience for us with an amazing result—we both feel fantastic, so we will make this our new year’s ritual!!! Cheers.”

— Margie T., Miami, FL
(actual customer pictured)

Stay Clean Healthy, and **Strong!**

5-Day KIDNEY Detox

- ✓ **FLUSHES, CLEANS and DISSOLVES** deposits from your kidneys and bladder.
- ✓ **Keeps blood HEALTHY and CLEAN.**
- ✓ **Helps to MAINTAIN normal blood sugar, which helps every organ in your body to work better.**

If you want to stay healthy, keeping your kidneys in good working condition is essential. Every organ in your body depends on your kidneys staying healthy and strong. In fact, all the cells in your body need nutrition brought in and waste eliminated out, and they need your kidneys to do this!

“If you want to LOOK GREAT, FEEL AWESOME and have TONS of ENERGY, then an easy 5-Day Kidney Detox is a great way to guarantee it!”

Special Detox Report

- **WHY** you need it
- **HOW** to do it

See Inside...

“Like preventative maintenance on your car, **routine detoxification of your elimination organs is preventative maintenance for your body.** In my clinic, seasonal detoxification was mandatory, not optional.”

— *Dr. Schulze*
