Is Retained Waste **Killing You?**

The colon lies next to, touches, and even wraps around almost every major organ in your body, from your heart and lungs to your liver, kidneys, pancreas, and reproductive organs.

When the colon is impacted with extra retained waste, it swells putting pressure on nearby blood vessels, nerves and organs. Every day in my clinic patients were amazed at how their seemingly unrelated health problems would magically disappear after cleansing and regulating their bowel with my herbs.

After cleansing, my patients experienced everything from healthy colons, increased energy, clearer thinking, vibrant skin, and easier digestion, to calmer moods, balanced hormones, regular menstruation, stronger libido, improved circulation... the list was almost endless of all the ways bowel cleansing helped my patients to create powerful health.

Friends, even if your bowel is perfect, someone in your family—a relative or a very close friend—is suffering. Healing starts at home, so please dare to talk about it. Today, Americans have the highest incidence of bowel issues in the WORLD. Let's heal America by getting people pooping again! Someone has to say it, or we will be a nation of colostomy bags and diapers!

Dr. Schutze

Why Unblock?

Your colon is so big that it is connected to, touches, or is in the vicinity of, every major organ in your body, except your brain. It also touches most of your blood vessels and nerves.

Constipation causes the colon to swell and when this happens, it can compress the lungs, heart, liver, gallbladder, pancreas, kidneys, adrenals, uterus or prostate. A constipated colon can cause an almost endless amount of seemingly unrelated diseases and problems.

A sluggish, swollen bowel can compress a nearby area, causing disease and infection in any area of the body.

This explains why 80% of my patients who used my Intestinal Formula #1 and did a 5-Day BOWEL Detox started to develop healthy hearts, normal blood pressure, normal blood sugar levels, balanced hormones, no fertility problems, functioning livers, normal cholesterol levels, healthy immune systems, normal urinary function, powerful adrenals, increased energy, healthy prostates, clean digestive tracts, stronger lower backs and normal leg circulation.

No matter how far removed from the colon the problem seems, cleanse the bowel first and see what happens. If you're like my patients, you will be thrilled with the results!

Every single patient in my clinic had retained waste or some type of blockage somewhere in their body, and most often it was in their bowel.

HOW DID WE GET HERE?

First, ALL animal food—meat, eggs and dairy—has absolutely NO fiber. So, when we eat it, it's really hard to get that grease and fat out of our bowel. Add in wheat and flour products, and now you have a heavy paste.

Second, we don't move our bodies much, and a sedentary lifestyle promotes constipation.

Third, in America we have way too much stress, major stress, and stress also causes constipation.

Add this all up, and you can clearly see why Americans not only have the highest incidence of constipation, but they also have the highest incidence of colon and rectal disease on the planet.

Even worse, retained fecal waste causes everything from bad skin, bad breath and backaches, to headaches and low energy and contributes to the worsening of every known major disease. In my clinic, besides increased nutrition, a thorough BOWEL CLEANSING had the biggest impact to solve chronic health problems and greatly increase my patients' overall health.

My patients were always so amazed at how much better they felt after having regular and complete bowel movements.

Why Bowel Cleansing Is So Important...

ACCUMULATED WASTE

The human body is a metabolic engine. Every system, every organ, and every cell of the human body takes in fuel to run and eliminate waste material. The majority of this waste is deposited into your colon.

In fact, the average American stores from 10 to 12 pounds of fecal matter in his or her colon. If this toxic waste isn't regularly eliminated, it will cause your body to be backed up with poisons, making it sluggish and unhealthy.

CONSTIPATION

This body of ours must have had some incredible engineer. Everything has its place and there is no extra room. If one organ swells, then another organ gets compressed or crushed. Organs don't work well when they are crushed, and circulation, gets interrupted. Every organ needs good circulation to bring nutrition in and get waste out, in order to be healthy.

“After more than 45 years in Natural Healing, I KNOW that BLOCKAGE is the root cause of all discomfort. When the body is free of blockage, and the waste is getting out, the nutrition is getting in, the blood, lymph and fluids are circulating, and the nerves are sparking, you will feel great—both physically and emotionally. **FREE the BLOCKAGE and watch the MIRACLES HAPPEN!**”
