“Nutrition
is what
YOU are
made of!”

The First Fundamental Step to Health & Vitality is Super-Nutrition

Friends, we don't eat **food** anymore, we eat **merchandise**.

Vitamins are essential, they're **VITAL**—that's where we get the name **VITAm**ins—and you need a fresh supply **every day**. If you don't get your daily requirements, you get sick.

My SuperFood products are the antidote to our modern, hectic, and active lifestyle. They will give you the nutrition, **energy, and protection** that you need to survive and thrive in today's fast-paced world.

FACT: Over 80% of Americans admitted to hospitals are nutritionally anemic, lacking in many major vitamins.

FACT: The American kitchen is now a microwave, which destroys vitamins. Our kids' dining table is now the backseat of our cars eating fast food. Home cooking has been replaced with convenience meals. Farm fresh has been replaced with flash frozen and 10,000 preservatives. The #1 eaten vegetable in America is now French fries.

It's not how many vitamins you take, but how much you **assimilate**. Most nutritional supplements are high in vitamins on the label, but if you think you are going to assimilate oyster shells, coral, iron ore, and synthetic chemicals into your blood and cells, think again.

Having a rich supply of nutrition in your blood gives you energy, vitality and strength, protects you from illness, and if you get sick, speeds up your recovery dramatically.
